

Connecting with Nature on Fiscalini Ranch Preserve: Wednesday Weeding is Back!

By KITTY CONNOLLY, Executive Director, Friends of the Fiscalini Ranch Preserve (fiscaliniranchpreserve.org)

Since Marion King began the program many years ago, it's been a tradition for volunteers to gather on Wednesdays at 8AM to tackle weeds on the Ranch.

In the last six years, this group has put in more than 3,300 hours! Along with excellent work by CCSD, they have transformed much of the Marine Terrace from a weed-choked mess into beautiful native plant habitat.

The Weeders have been on hiatus but now are back, with safe social distancing. When more than 10 people take part, they break into smaller groups.

If you want to get some exercise, meet some great people, and help the Ranch, join the Weeders by visiting [our web site](http://fiscaliniranchpreserve.org).

Thank you for helping preserve and protect the Fiscalini Ranch Preserve!
